# VAISHNAVI KOTTURI

SDM Intern @Being Zero Pvt Ltd | PWC Launchpad Program  
Mentee | Ananya GS Catalyst Mentee | CSE@BVRITH'27  
Greater Hyderabad Area

## Summary

Hi! I'm Vaishnavi Kotturi, a proactive BTech student in Computer Science at BVRIT Hyderabad, dedicated to transforming challenges into technological solutions.

My technology-driven mindset is evident from my high academic achievements and the variety of projects undertaken during my undergrad studies. From creating a full-fledged management system for gated communities to engineering an entertaining brick breaker game, my projects not only hone my coding skills but also focus on users' real-world needs. #

I excel in Java, Python, and C, and am passionate about all things tech, especially exploring the vast possibilities within cloud computing and database management.
